Time Timer teaches children to manage their time by showing time left. Time is set by moving the red disc counter clockwise to the desired time interval. Disc diminishes as time elapses until no red is visible on the timer face. Timer can be displayed on a wall or with the included base and is ideal for timed tests, activities and learning center sessions.

Diameter and Radius Worksheets. When first studying circles, many students often confuse the diameter and the radius. Even though these two values have a very simply relationship, simple worksheets that practice calculating one from the other can help cement this knowledge before moving on to more complicated circle operations such as calculating the area and circumference.

GCSE Maths Formulae

Chapter 4 Conditionals and recursion 4.1 The modulus operator. The modulus operator works on integers (and integer expressions) and yields the remainder when the first operand is divided by the second. In Python, the modulus operator is a percent sign (%).The syntax is the same as for other operators:
