*Ee364a Solutions - If you ally obsession such a referred ee364a solutions ebook that will have enough money you worth, acquire the certainly best seller from us currently from several preferred authors. If you want to humorous books, lots of novels, tale, jokes, and more fictions collections are with launched, from best seller to one of the most current released.*

*You may not be perplexed to enjoy every books collections ee364a solutions that we will unconditionally offer. It is not vis--vis the costs. It's virtually what you infatuation currently. This ee364a solutions, as one of the most functional sellers here will enormously be along with the best options to review.*

EE364a, Winter 2007-08 Prof. S. Boyd EE364a Homework 3 solutions 3.42 Approximation width. Let  $f_0, \dots, f_n: \mathbb{R} \rightarrow \mathbb{R}$  be given continuous functions. We consider the problem of approximating  $f_0$  as a linear combination of  $f_1, \dots, f_n$ . For  $x \in \mathbb{R}^n$ , we say that  $f = x_1 f_1 + \dots + x_n f_n$  approximates  $f_0$  with tolerance  $\epsilon > 0$  over

EE364a, Winter 2007-08 Prof. S. Boyd EE364a Homework 8 solutions 9.8 Steepest descent method in  $\ell_\infty$ -norm. Explain how to find a steepest descent direction in the  $\ell_\infty$ -norm, and give a simple interpretation. Solution. The normalized steepest descent direction is given by  $\Delta x_{\text{nsd}} = -\text{sign}(\nabla f(x))$ , where the sign is taken componentwise.
