I managed to get one of the SonicWalls transferred to my account and then was able to download the firmware. The other one won't give me the option to transfer it and says it's already registered, though I don't know what Sonicwall account it's registered to.

[SOLVED] Cannot connect to SonicWall with any browser ...

Android runs on a variety of devices that have different screen sizes and pixel densities. The system performs basic scaling and resizing to adapt your user interface to different screens, but there is more work you should do to ensure your UI gracefully adapts for each type of screen.

Screen compatibility overview | Android Developers

I think it's also important to take window height into account. I use a 27" monitor, but I don't run the browser fullscreen (why would I?); instead I run it taking up half the screen, so it's 'only' 1280px wide, but still 1440px high, so I feel like I need to have larger text than if I was running a browser fullscreen on a 1280x800 laptop screen.
