This is a list of cryptids, which are animals presumed by followers of the cryptozoology pseudoscientific subculture to exist on the basis of anecdotal or other evidence considered insufficient by mainstream science. While biologists regularly identify new species following established scientific methodology, cryptozoologists focus on entities mentioned in the folklore record and rumour.

List of cryptids - Wikipedia

Cryptozoology is the study of animals and other creatures that have not yet been accepted by science as real. In other words, it is monster-hunting. Cryptozoologists look for creatures like sea serpents and the yeti , hoping to gather enough evidence to prove that these beings exist.
