Drawing Hands is a lithograph by the Dutch artist M. C. Escher first printed in January 1948. It depicts a sheet of paper out of which, from wrists that remain flat on the page, two hands rise, facing each other and in the paradoxical act of drawing one another into existence. Although Escher used paradoxes in his works often, this is one of the most obvious examples.

An advance healthcare directive, also known as living will, personal directive, advance directive, medical directive or advance decision, is a legal document in which a person specifies what actions should be taken for their health if they are no longer able to make decisions for themselves because of illness or incapacity. In the U.S. it has a legal status in itself, whereas in some countries ...

Those who had drawn mandalas showed a decrease in symptoms of trauma at a one-month follow-up, whereas those who drew an object did not. (It should be noted that other potential differences in the groups were studied, but this was the only difference that was statistically significant; some of these expected changes, such as differences in anxiety levels among those who drew mandalas and those ...
