Clinigence integrates patient data from multiple EHR systems across practices and care settings and merges it with cost data from payers. We do not depend on EHR vendors or limited interoperability standards. Clinigence extracts data directly from all EHR system and normalizes them to create a complete clinical picture of each patient.

#### **Clinigence: The Business of Clinigence Intelligence**

Clinical Data Solutions developed The Clinical Manager™ (TCM) to serve diversified systems that are constantly in transition. As the needs of these systems change, so must our information systems. Managed care and other fundamental changes in the way services are funded require a flexible and powerful technology.
