A contrastive analysis in this area is necessary and important because it shows difference between English and Vietnamese prepositions in relation to direction and location. Directional and locative prepositions are the ones that often causes trouble to students more than other types.

English And Vietnamese Prepositions Contrastive Analysis ...

Contrastive analysis is viewed as an interlinguistic, bidirectional phenomenon which is concerned with both the form and function of language. As such, contrastive analysis must view language psycholinguistically and sociolinguistically as a system to be both described and acquired. Due to the need for a psychological component in the analysis, the notion of transfer is discussed.
