I have only read a few of Greg Egan's books before, but I think this is the one I've enjoyed most so far. My biggest motivation for reading science fiction, is to find new ideas about the physical universe and humanity's place in it. Distress is filled with enough ideas to populate multiple more conventional science fiction novels.

**Distress: Greg Egan, Adam Epstein ... - amazon.com**

Greg Egan's science fiction is always dense, challenging and, if the reader is willing to work a little harder than usual, very entertaining. Distress, a novel whose central action is the formulation of a watertight Theory of Everything, is no exception. It's the year 2055, and science reporter Andrew Worth is caught up in the political and ethical turmoil surrounding a physics convention ...
