Weapon Types. The weapons on the following tables are grouped into types, and they are further divided into categories within each type. Most weapons belong to both a weapon type and a weapon category.

Weapons - Starjammer SRD

A chemical element is a species of atom having the same number of protons in their atomic nuclei (that is, the same atomic number, or Z). For example, the atomic number of oxygen is 8, so the element oxygen consists of all atoms which have exactly 8 protons.. 118 elements have been identified, of which the first 94 occur naturally on Earth with the remaining 24 being synthetic elements.

Chemical element - Wikipedia

We are the leader in harvesting hydrocarbons from conventional resource plays. Where other exploration and development companies see problems due to high water saturation, we see opportunities.
