Phrenology (from Ancient Greek φρήν (phrēn), meaning 'mind', and λόγος (), meaning 'knowledge') is a pseudoscience which involves the measurement of bumps on the skull to predict mental traits. It is based on the concept that the brain is the organ of the mind, and that certain brain areas have localized, specific functions or modules. Although both of those ideas have a basis in ...

vol 6 pg 1. A Philosophy of Education Book 1. Introduction. These are anxious days for all who are engaged in education. We rejoiced in the fortitude, valour and devotion shown by our men in the War and recognize that these things are due to the Schools as well as to the fact that England still breeds "very valiant creatures."

Political science, the systematic study of governance by the application of empirical and generally scientific methods of analysis. As traditionally defined and studied, political science examines the state and its organs and institutions. The contemporary discipline, however, is considerably broader than this, encompassing studies of all the societal, cultural, and psychological factors that ...

Teacher efficacy is a simple idea with significant implications. A teacher's efficacy belief is a judgment of his or her capabilities to bring about desired outcomes of student engagement and learning, even among those students who may be difficult or unmotivated (Armor et al., 1976; Bandura, 1977). This judgment has powerful effects.

Teacher efficacy: capturing an elusive construct ...

[The] American business community was also very impressed with the propaganda effort. They had a problem at that time. The country was becoming formally more democratic.

Propaganda by Edward Bernays (1928)

Moral theology is a branch of theology, the science of God and Divine things. The distinction between natural and supernatural theology rests on a solid foundation. Natural theology is the science of God Himself, in as far as the human mind can by its own efforts reach a definite conclusion about God and His nature: it is always designated by the adjective natural.

Lojban language logo; Many science fiction novels have noted how difficult, illogical, unscientific, and inefficient the English language is (did you know that "ghoti" should be pronounced "fish?"). It is certainly a burden for people to learn as a second language, and even more so to try and teach to an alien race.
