*It is your completely own era to action reviewing habit. in the middle of guides you could enjoy now is clinical data management solutions below.*

### **Clinical Data Management Solutions**

A clinical data management system or CDMS is a tool used in clinical research to manage the data of a clinical trial. The clinical trial data gathered at the investigator site in the case report form are stored in the CDMS. To reduce the possibility of errors due to human entry, the systems employ various means to verify the data.
