To help provide researchers with a way of understanding and researching these categories and their relationships, we propose the use of institutional theory (see DiMaggio and Powell, 1991, DiMaggio and Powell, 1983). This theory has been widely used to study the adoption and diffusion of organizational forms and HRM activities (e.g., Björkman, 2006).

Insight, not hindsight is the essence of predictive analytics. How organizations instrument, capture, create and use data to predict next steps/actions is fundamentally changing the dynamics of work, life and leisure. Analytics is the discovery and communication of meaningful patterns in data (corporate, product, channel, and customer). It's not the data but the signals buried in...
