Adiabatic pulses are a class of amplitude- and frequency-modulated RF-pulses that are relatively insensitive to B1 inhomogeneity and frequency offset effects. They utilize the adiabatic principle explained in the previous Q&A wherein magnetization (M) is manipulated by a slow passage of the B1 field through resonance. With adiabatic pulses spins having different resonant frequencies are ...

It's not hard to write IO code in pure functional languages. They all provide a simple mechanism for writing IO code that works just like it does in imperative languages. All they do is enforce that you can't call IO code inside other code whose interface is declared as not performing IO. An analogy would be a dynamic language programmer complaining that a statically typed language like Java ...

Sociological theory vs. social theory. Kenneth Allan proposed the distinction between sociological theory and social theory. In Allan's usage, sociological theory consists of abstract and testable propositions about society. It often heavily relies on the scientific method, which aims for objectivity, and attempts to avoid passing value judgments. In contrast, social theory, according to Allan ...
