Discourse Analysis Linguistics

Discourse analysis (DA), or discourse studies, is the approaches to analyze written, vocal, or sign language use, or any significant semiotic event.. The objects of discourse analysis (discourse, writing, conversation, communicative event) are variously defined in terms of coherent sequences of sentences, propositions, speech, or turns-at-talk. Contrary to much of traditional linguistics ...

Discourse analysis - Wikipedia

Background. Critical discourse analysis emerged from 'critical linguistics' developed at the University of East Anglia in the 1970s, and the terms are now often interchangeable. Research in the field of sociolinguistics was paying little attention to social hierarchy and power. CDA was first developed by the Lancaster school of linguists of which Norman Fairclough was the most prominent figure.

Critical discourse analysis - Wikipedia

The term discourse analysis is very ambiguous. I will use it in this book to refer mainly to the linguistic analysis of naturally occurring connected speech or written discourse. Roughly speaking, it refers to attempts to study the organisation of language above the sentence or above the clause, and therefore to study larger linguistic units, such as conversational exchanges or written texts.
