Introductory Econometrics: A Modern Approach

We introduce a generalization of the popular local-to-unity model of time series persistence by allowing for p autoregressive roots and $p-1$ moving average roots close to unity. This generalized local-to-unity model, GLTU(p), induces convergence of the suitably scaled time series to a continuous time ...

Chris Sims's Page - Princeton University

Smale's problems are a list of eighteen unsolved problems in mathematics that was proposed by Steve Smale in 1998, republished in 1999. Smale composed this list in reply to a request from Vladimir Arnold, then vice-president of the International Mathematical Union, who asked several mathematicians to propose a list of problems for the 21st century.. Arnold's inspiration came from the list of ...
