Check out the Resilient Cities 2019 program overview below or download the pdf overview. While it will be still subject to adjustments, the Congress' structure offers a synopsis of the topics we will discuss, the speakers and the special elements for this 10th anniversary edition!

Program - Resilient Cities 2019

The use of mathematics in the service of social and economic analysis dates back to the 17th century. Then, mainly in German universities, a style of instruction emerged which dealt specifically with detailed presentation of data as it related to public administration. Gottfried Achenwall lectured in this fashion, coining the term statistics. At the same time, a small group of professors in
