Denial Self Deception False Beliefs

Only the human brain developed in such a way that both self consciousness and death denial ability developed together at some time (only once) in our past and that was the turning point. The book is then one long argument (in the author's words) to try to convince himself and the reader that the argument is correct.

Amazon.com: Denial: Self-Deception, False Beliefs, and the ...

Do not underestimate denial. It's part and parcel of our cognitive heritage. I'm reading an amazing book called Denial: Self-Deception, False Beliefs and the Origins of the Human Mind. In brief, the author asks why other intelligent animals have not evolved like humans?

Denial: Self-Deception, False Beliefs, and the Origins of ...

On the other hand reality-denial affords us many valuable attributes, such as optimism, confidence, and courage in the face of long odds. Presented in homage to Brower's original thinking, DENIAL offers a powerful warning about the dangers inherent in our remarkable ability to ignore reality-a gift that will either lead to our downfall, or ...

DENIAL: Self-Deception, False Beliefs, and the Origins of ...

Publisher's Overview. Humans therefore needed to evolve a mechanism for overcoming this hurdle: the denial of reality. As a consequence of this evolutionary quirk we now deny any aspects of reality that are not to our liking-we smoke cigarettes, eat unhealthy foods, and avoid exercise, knowing these habits are a prescription for an early death.

Ajit Varki and Danny Brower's "Mind over Reality" theory is poised to be one such idea-a concept that runs counter to commonly-held notions about human evolution but that may hold the key to understanding why humans evolved as we did, leaving all other related species far behind.

Denial: Self-Deception, False Beliefs, and the Origins of ...

But to Ajit Varki, an oncologist and specialist in human origins, and Danny Brower, a geneticist who died in 2007, denial is something altogether different: a prerequisite for human intelligence. That startling premise is explored in their book Denial: Self-Deception, False Beliefs, and the Origins of the Human Mind.

As a consequence of this evolutionary quirk we now deny any aspects of reality that are not to our liking-we smoke cigarettes, eat unhealthy foods, and avoid exercise, knowing these habits are a prescription for an early death.

Denial: Self-Deception, False Beliefs, and the Origins of ...

Butler defined self-deception as intentionally maintaining contradictory and not just inconsistent beliefs. Two beliefs contradict when one belief asserts something (call it "p") and the other asserts its exact denial (call it "not-p").

Addiction and Self-Deception | Psychology Today

Denial: Self-Deception, False Beliefs, and the Origins of the Human Mind. It was not, the authors argue, a biological leap that set humanity apart from other species, but a psychological one: namely, the uniquely human ability to deny reality in the face of inarguable evidence-including the willful ignorance of our own inevitable deaths.
