Note: Paragraphs are numbered in small case in order to communicate with reviewers. 1. Introduction. One of the problems in understanding evolution is that it may be defined in different ways. According to the Random House Webster's College Dictionary (1999), biological evolution is a change in the genetic makeup of a population from generation to generation.

Biochar composition can be crudely divided into relatively recalcitrant C, labile or leachable C and ash. The greatest chemical difference between biochar and other organic matter is the much larger proportion of aromatic C and, specifically, the occurrence of fused aromatic C structures (), in contrast to other aromatic structures of soil organic matter such as lignin (Schmidt and Noack, 2000).

Scientists continue the search for answers regarding causes, diagnoses, and treatments for Alzheimer's disease. One promising target is beta-amyloid, a protein that builds up into plaques, and researchers are working on several ways to clear beta-amyloid from the brain or prevent it from clumping together to form plaques.

Edward II (1284–1327) was King of England from 1307 until he was deposed in January 1327. He married Isabella, the daughter of the powerful King Philip IV of France, in 1308. Edward had a close and controversial relationship with Piers Gaveston, who had joined his household in 1300. Gaveston's arrogance and power as Edward's favourite provoked discontent among both the barons and the French ...

If there's a single vitamin you need to know more about, it's vitamin K2. The first reason is you're probably not getting enough. The second is that it doesn't get the attention it deserves, and it's really hard to find reliable and easy-to-use information about it. This resource is meant to change that. It begins [...]
