A computer is a machine that can be instructed to carry out sequences of arithmetic or logical operations automatically via computer programming. Modern computers have the ability to follow generalized sets of operations, called programs. These programs enable computers to perform an extremely wide range of tasks.

Computer - Wikipedia

A Massachusetts Institute of Technology professor has declared that it's more likely that we are living in a simulation than not. In a recent interview with Digital Trends, MIT researcher Rizwan Virk stated that in his own personal estimation, we're probably living in a simulation.

MIT Professor: "MORE LIKELY We Are In A Simulation Than Not!"

What will I learn in this degree? Students prepare to be organizational leaders through the use of business intelligence and data analytics. As a Master of Data Analytics (MSDA) student at CSU-Global, you build confidence for improved decision-making skills related to processes in a variety of core business functions -- accounting, finance, logistics, management, and strategy.
