Rather than enjoying a good book with a cup of tea in the afternoon, instead they are facing with some malicious bugs inside their desktop computer.

connective tissue review answers is available in our book collection an online access to it is set as public so you can download it instantly.

Our book servers spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one.

Kindly say, the connective tissue review answers is universally compatible with any devices to read

Connective Tissue Review Answers

Answer 91. Ground substance is the material between fibers and cells of a connective tissue. It is made of hydrated gel and is essential for transport of nutrients within the tissue. A major constituent is proteoglycans having a protein core with glycosaminoglycans attached (looks like a test tube brush). These are highly hydrophilic.

Review Guide - TISSUES (Chapter 5) - The Biology Corner

As may be obvious from its name, one of the major functions of connective tissue is to connect tissues and organs. Unlike epithelial tissue, which is composed of cells closely packed with little or no extracellular space in between, connective tissue cells are dispersed in a matrix. The matrix usually includes a large amount of extracellular material produced by the connective tissue cells that ...
