Control Solution For Diabetic Meters

What is control solution? The control solution is a liquid that contains a known amount of glucose. This glucose reacts with the test strips you use in your glucose meter to give a result. To use it, you simply insert a test strip into the meter and apply the control solution in the same way you would apply a drop of blood. The resulting number ...

Amazon.com: glucose meter control solution

You probably never use the control solution for your blood glucose meter. You can blame your doctor or yourself for this oversight, but the chances are that you never have heard this term before. Our doctors and other medical professionals rarely discuss using a control solution. It usually doesn't come with our blood glucose meters. And your local drug store probably doesn't carry the one ...

Should You Use the Control Solution to Check Your Meter ...

Blood glucose meter systems (BGMs) are used by millions of patients with diabetes worldwide each and every day under the assumption that the meters (in combination with the test strips) provide reliable glucose measurements. However, the only option that patients have in their daily life to check ...

Control Solutions for Blood Glucose Meters

Glucose control will prevent the onset of diabetes-related complications such as heart disease, neuropathy (nerve pain), nephropathy (kidney disease), and retinopathy (retina damage). Although control tests with glucose control solution may be performed at any time, these tests are strongly recommended: when the meter is new.
