Dialysis costs have soared out of control and are dramatically impacting costs for both the patient and the health plan. PPO's have been ineffective in addressing this area and the typical fees charged by others to "save money" is so much each month that Payers and Health Plans feel as if they are being gouged and are demanding a different solution.

**Dialysis Claim Review | Health Cost Control | Cost ...**

The limited number of treatment providers restricts the ability of PPOs to effectively protect self-funded plan assets from the soaring cost of dialysis claims. That is where Dialysis Management Solutions (DMS) can help. U&R Review

Hemodialysis, also spelled haemodialysis, or simply dialysis, is a process of purifying the blood of a person whose kidneys are not working normally. This type of dialysis achieves the extracorporeal removal of waste products such as creatinine and urea and free water from the blood when the kidneys are in a state of kidney failure. Hemodialysis is one of three renal replacement therapies (the ...
