Earlier in Lesson 6, four kinematic equations were introduced and discussed. A useful problem-solving strategy was presented for use with these equations and two examples were given that illustrated the use of the strategy. Then, the application of the kinematic equations and the problem-solving strategy to free-fall motion was discussed and illustrated.

There are collective myths by which we interpret our reality. These myths are obstacles to creating what you want in life. The myths are given to us by experts because that is what they went to school to learn.. The only truth you will get from highly educated people comes from a few great intellectuals which the establishment won't dare attack, like Einstein and Max Planck.
