Kevin Hardy After having two audits on payroll from the State of NY and both times found out I overpaid, I decided to find a payroll service. I selected PayServ and they have been fantastic. Tech support and personal service is the best and I can relax and focus on business because payroll is not a concern.

In computer security, a hacker is someone who focuses on security mechanisms of computer and network systems. While including those who endeavor to strengthen such mechanisms, it is more often used by the mass media and popular culture to refer to those who seek access despite these security measures. That is, the media portrays the 'hacker' as a villain.
