Person-centered psychotherapy (also known as client-centered or Rogerian therapy) is a form of talk therapy developed by Carl Rogers in the 1940s and 1950s. The purpose of this form of therapy is to increase a person's feelings of self-worth, reduce the level of incongruence between the ideal and actual self, and help a person become more fully

Person Centered Approach. Note: Person centered therapy is also called client centered therapy. One major difference between humanistic counselors and other therapists is that they refer to those in therapy as 'clients', not 'patients'. This is because they see the therapist and client as equal partners rather than as an expert treating a patient.

About the author (2003) Carl Rogers was Professor of Psychology and Psychiatry at the University of Wisconsin and Head of the Psychotherapy Research Section of the Psychiatric Institute. He was active in the practice of psychotherapy for over thirty years, and the originator of what is called 'client-centred' therapy. He died in 1987.

Client-centered Therapy: Its Current Practice ...

The instances where client centered therapy is less likely to work is when an individual is undergoing psychosis or in extreme psychological crisis (Grant, 2010). Client centered therapy works best for those clients who have the ability to communicate, remain in the here and now, and put the past into perspective.
