SELPA Procedural Handbook. The SELPA Procedural Handbook is currently being updated; some sections of the handbook may not be current or available at this time.

Procedural Handbook - San Mateo County Office of Education

This resource offer students the opportunity to engage in active learning - measuring and calculating using large size cylinders and frustums. This lesson brings great opportunity for small group "dialogic teaching". Open-ended and closed questioning (ta) of students can be used to draw on their existing knowledge and extend their understanding. The teacher provides a practical commentary below.

Teaching approaches: Questioning - OER in Education

AP's high school Biology course is a rigorous, college-level class that provides an opportunity to gain the skills and experience colleges recognize.

"Lock and key" model. To explain the observed specificity of enzymes, in 1894 Emil Fischer proposed that both the enzyme and the substrate possess specific complementary geometric shapes that fit exactly into one another. This is often referred to as "the lock and key" model.: 8.3.2 This early model explains enzyme specificity, but fails to explain the stabilization of the transition state ...
