In two quasi-experimental studies – Study 1 among medical specialists (N = 119) and Study 2 among nurses (N = 58) – we tested the impact of a general and a specific job crafting intervention on health care professionals' well-being and (objective and subjective) job performance. Both groups of participants received training and then set personal job crafting goals for a period of three weeks.

First, let's make a set of bookends. My partner and I came up with this project as a way to use another dust-gathering technology: old CDs. To begin this project, remove the card stock sleeve from the videotape, and make sure the tape is all wound to one side of the cassette; this way, all the weight will be at the bottom of the tape, which is best for stability.
