Masculinity (also called manhood or manliness) is a set of attributes, behaviors, and roles associated with boys and men. As a social construct, it is distinct from the definition of the male biological sex. Standards of manliness or masculinity vary across different cultures and historical periods. Both males and females can exhibit masculine traits and behavior.

We synthesize our proposal for strategic leadership in today's dynamic environments under the label of transcendent leadership. A transcendent leader is a strategic leader who leads within and amongst the levels of self, others, and organization (see Fig. 1). Leadership of self is an emerging area in the leadership literature, while leadership of others has been the dominant focus of leadership ...
