The baritone voice is typically written in the range from the second G below middle C to the G above middle C (G2-G4) although it can be extended at either end. However, the baritone voice is determined not only by its vocal range, but also by its timbre, which tends to be darker than that of the typical tenor voice.. The term baritone was developed in relation to classical and operatic voices ...

Sociological Aspects of Music Psychology Human beings are not meant to live in isolation. Our complex mammalian nature, along with a host of other emotional, physical and spiritual drives, cause us to form groups. The smallest social unit is the family, which spawns larger groups, communities, and finally nations.
