Mystery Science offers open-and-go lessons that inspire kids to love science. The hook, visuals, and activity have all been prepared for you. Less prep, more learning.

Mystery Science: Lessons for elementary teachers

Understanding key terms is crucial to learn what happens during gummy bear osmosis experiments. Osmosis occurs when liquids flow through a semi-permeable membrane from a diluted to a concentrated environment.

Osmosis Experiments With Gummy Bears | Sciencing

Dear MPE Families, We had a great first week back! Please see below for upcoming events. Attached to this email is the PTA Weekly Update and information about the new summer academy that is begin offered for rising first and second grade students.

Mt. Pleasant Elementary School / MPE Homepage

Chances are that you separate mixtures often. For example, any time you separate laundry or pick a topping off a pizza or drain a batch of freshly cooked pasta, you are separating a mixture. A mixture is a combination of substances that do not react chemically when they are mixed.

According to this definition, a ...

Fun Experiments for Separating Mixtures | Sciencing

The pH meter is an electronic instrument supplied with a special bulb which is sensitive to the hydrogen ions which are present in the solution being tested. The signal produced by the bulb is amplified and sent to a liquid-crystal or an analog meter display. In the market, it is easy to find pH meters which cost \$30 US.

Experiments with Acids and Bases - Fun Sci

A list of 101 websites for elementary teachers that you should know if you teach PreK through 5th grade. Tons of great resources for the core subjects.

101 Websites for Elementary Teachers That You Should Know

The antiproton, p , (pronounced p-bar) is the antiparticle of the proton. Antiprotons are stable, but they are typically short-lived, since any collision with a proton will cause both particles to be annihilated in a burst of energy.. The existence of the antiproton with -1 electric charge, opposite to the $+1$ electric charge of the proton, was predicted by Paul Dirac in his 1933 Nobel Prize ...

Antiproton - Wikipedia

The Drowning Child. This activity looks at some of the issues raised by two articles written by philosopher Peter Singer: the first, the seminal, "Famine, Affluence, and Morality"; the second, a somewhat shorter article called, "The Drowning Child and the Expanding Circle" (it's probably best if you read these articles after, rather than before, you undertake this activity).

The Drowning Child - Philosophy Experiments

The only problem is which chemistry experiment to try first! Below you will find a fun mixture {no pun ...

Chemistry Activities and Science Experiments for Kids

How do strong and weak acids differ? Use lab tools on your computer to find out! Dip the paper or the probe into solution to measure the pH, or put in the electrodes to measure the conductivity. Then see how concentration and strength affect pH. Can a weak acid solution have the same pH as a strong acid solution?
