For reasons that are hard to fathom, too many people believe that in education the exceptions are the rule. Presidents and politicians of both parties are quick to point out the wonderful but occasional story of a child's rise from poverty to success and riches. They also often proudly recite the heroic, remarkable, but occasional impact of a teacher or a school on a child.

The connection between race and intelligence has been a subject of debate in both popular science and academic research since the inception of IQ testing in the early 20th century. There remains some debate as to whether and to what extent differences in intelligence test scores reflect environmental factors as opposed to genetic ones, as well as to the definitions of what "race" and ...
