Masonry is the building of structures from individual units, which are often laid in and bound together by mortar; the term masonry can also refer to the units themselves. The common materials of masonry construction are brick, building stone such as marble, granite, and limestone, cast stone, concrete block, glass block, and adobe. Masonry is generally a highly durable form of construction.

### **Masonry - Wikipedia**

I think someone may have misread the blueprints on this job. Somehow, this junction box ended up right in the middle of this wall. In fact, it appears as though the wall was constructed right around the box. Maybe it was the electrician, or maybe it was the carpenter who made the mistake. But no ...
