Science curriculum doesn't have to be expensive. A good portion of what we've used for science over the years has been free resources! I remember science being incredibly dry and boring in school and I want my children's science experience to be anything but boring. Because of that, I seek out resources that offer learning through living books and lots and lots of experiments.

Learning Strategies. By: Jason R. Freeman. What are learning strategies? As students shift from the skills emphasis of elementary grades to the content emphasis of secondary grades, they face greater demands to read information from textbooks, take notes from lectures, work independently, and express understanding in written compositions and on paper and pencil tests (Schumaker & Deshler, 1984).
