Series GC gas coalescers is a unique two-stage filtering concept for use on air and gas streams requiring both solids and liquids removal. By combining the principals of impingement baffling with the most efficient filtration and coalescing cartridge designs, the GC series will remove virtually all entrained water and hydrocarbons in free, fog or mist form.

Gas coalescer - Hydro-Carbon Filtration & Separation

The oil and gas industry uses many jargons, acronyms and abbreviations. Obviously, this list is not anywhere near exhaustive or definitive, but this should be the most comprehensive list anywhere. Mostly coming from user contributions, it is contextual and is meant for indicative purposes only.
