Dahl Modern Political Analysis

Robert Alan Dahl (/ d ɑː l /; December 17, 1915 – February 5, 2014) was a political theorist and Sterling Professor of Political Science at Yale University. He established the pluralist theory of democracy—in which political outcomes are enacted through competitive, if unequal, interest groups—and introduced "polyarchy" as a descriptor of actual democratic governance.

Robert A. Dahl - Wikipedia

Political science is a social science which deals with systems of governance, and the analysis of political activities, political thoughts, and political behavior. It deals extensively with the theory and practice of politics which is commonly thought of as determining of the distribution of power and resources. Political scientists "see themselves engaged in revealing the relationships ...

Political science - Wikipedia

Political science, the systematic study of governance by the application of empirical and generally scientific methods of analysis. As traditionally defined and studied, political science examines the state and its organs and institutions. The contemporary discipline, however, is considerably broader than this, encompassing studies of all the societal, cultural, and psychological factors that ...

Highlights The persistence of health inequalities in the modern welfare states of Western Europe is difficult to explain. We hypothesize that it is partly due to persisting inequalities in access to material and immaterial resources. We hypothesize that it is partly due to greater intergenerational social mobility and stronger selection. We hypothesize that it is partly due to consumption ...

Federalism is the theory or advocacy of federal principles for dividing powers between member units and common institutions. Unlike in a unitary state, sovereignty in federal political orders is non-centralized, often constitutionally, between at least two levels so that units at each level have final authority and can be self governing in some issue area.
