Grow your lifetime customer fan base with SAP banking software for the financial services industry – and offer a superior digital banking experience.

Banking & Financial Services | Industry Software Solutions ...

Banking software is enterprise software that is used by the banking industry to provide and manage the financial products they provide. Within retail banks, banking software typically refers to core banking software and all its interfaces that allows them to connect to other modular software and to the interbank networks. Within investment banking, banking software typically refer to the ...

Banking software - Wikipedia

The shadow banking system is a term for the collection of non-bank financial intermediaries that provide services similar to traditional commercial banks but outside normal banking regulations. The phrase "shadow banking" contains the pejorative connotation of back alley loan sharks. Many in the financial services industry find this phrase offensive and prefer the euphemism "market-based finance".

Shadow banking system - Wikipedia

The emergence of artificial intelligence (AI), like the rise of the assembly line and the advent of the internet before it, has played a key part in ushering in a Fourth Industrial Revolution. According to the World Economic Forum, it is disrupting almost every industry in every country.
