A dead key is a special kind of a modifier key on a mechanical typewriter, or computer keyboard, that is typically used to attach a specific diacritic to a base letter. The dead key does not generate a (complete) character by itself, but modifies the character generated by the key struck immediately after. Thus, a dedicated key is not needed for each possible combination of a diacritic and a ...

"Why can't I just leave it if it's dead?" Answer: Because the empty space in the pulp chamber is a perfect breeding ground for bacteria. If left untreated, an abscess can occur. Not pleasant! The two primary treatment options of non-vital teeth are extraction or root canal. Sometimes there is no option but to extract, e.g. if it is grossly decayed beyond repair, whereas other times root ...
