Highlights We propose a method for decisionmaking under uncertain change: Dynamic Adaptive Policy Pathways. The DAPP approach stimulates planners to include adaptation over time in their plans. Adaptation pathways provide insights into options, lock-in possibilities, and path dependencies. Triggers are used to indicate when a new action should come into force. Contingency actions are used to ...

Dynamic adaptive policy pathways: A method for crafting ...

1. Introduction. The importance of capture fisheries and aquaculture for income, food security and livelihoods, and the severity of the challenges faced by these sectors, particularly in small island developing states (SIDS) and least developed countries (LDCs), have contributed to their prominent inclusion in recent international policy documents.

Aligning fisheries aid with international development ...

Studies in primate cognition Theory of mind. Premack and Woodruff's 1978 article "Does the chimpanzee have a theory of mind?" sparked a contentious issue because of the problem of inferring from animal behavior the existence of thinking, of the existence of a concept of self or self-awareness, or of particular thoughts. [citation needed]Non-human research still has a major place in this field ...

A steady-state economy is an economy made up of a constant stock of physical wealth (capital) and a constant population size. In effect, such an economy does not grow in the course of time. The term usually refers to the national economy of a particular country, but it is also applicable to the economic system of a city, a region, or the entire world.

Steady-state economy - Wikipedia
