I've found that some Amazon basic batteries work brilliantly. They retain their charge for ages and don't seem to affect motor speed. Alternately, and this is something I'm working on, you might be

able to connect some huge D type batteries using a few crocodile clips, wires and elastic bands — but I don't know if that would work, or if it would burn the brick.

Gender is the range of characteristics pertaining to, and differentiating between, masculinity and femininity. Depending on the context, these characteristics may include biological sex (i.e., the state of being male, female, or an intersex variation), sex-based social structures (i.e., gender roles), or gender identity. Many if not most societies use a gender binary, having two genders, men ...
