Products | Kichler Lighting

A gently mottled texture and a subtle green hue characterize each shade of our pendant, generously sized and ideal for high ceilings. Each shade is created of molded mouth-blown glass in an eclectic shape and affixed to the wrought-iron frame. ...

Paxton Glass 8-Light Pendant | Pottery Barn

A Simple Way to Make a Big Impact. Lighting has the ability to make a big impact in two ways: the fixture itself is a design element, and also the light that it casts can greatly affect the look and feel of a room.

Lighting Solutions to Suit any Décor | The Door Store

Incandescent is the most commonly used light bulb and usually the least expensive. This type of light has a warm, inviting quality and is very complimentary to skin tones and psychologically appealing. Incandescent bulbs usually last between 700 to 1,000 hours and can be used with a dimmer; however, they're not as energy efficient as other options.

Light Bulbs: Know the Different Types | HGTV

Hundreds of glass droplets form a shimmering cascade on this chandelier. Crystals in alternating teardrop and raindrop shapes, with a faceted globe at the bottom, are so densely strung they completely cover the metal framework. • Glass drops s...

Fill a tin can with water, freeze it, and punch a design using a hammer and nail. once the ice has melted, you can paint the can's exterior. Find all the details here.

28 Outdoor Lighting DIYs To Brighten Up Your Summer

A glow stick is a self-contained, short-term light-source. It consists of a translucent plastic tube containing isolated substances that, when combined, make light through chemiluminescence, so it does not require an external energy source. The light cannot be turned off and can only be used once. Glow sticks are often used for recreation, but may also be relied upon for light during military ...
