Semiotics for Beginners: References

Post-structuralism refers to the intellectual developments in continental philosophy and critical theory that were outcomes of twentieth-century French philosophy. The prefix "post" refers to the fact that many contributors such as Jacques Derrida, Michel Foucault, and Julia Kristeva were former structuralists who, after abandoning structuralism, became quite critical of it.

Post-structuralism - New World Encyclopedia

Semiotics, semiotic studies, or semiology, is the study of signs and symbols, both individually and grouped into sign systems. It includes the study of how meaning is constructed and understood. This discipline is frequently seen as having important anthropological dimensions. However, some semioticians focus on the logical dimensions of the science.
