An electric vehicle network is an infrastructure system of charging stations and battery swap station to recharge electric vehicles. Many government, car manufacturers, and charging infrastructure providers sought to create networks. As of December 2016, Estonia remained the only country to have completed a nationwide public electric charging network.

Synthetic-aperture radar (SAR) is a form of radar that is used to create two-dimensional images or three-dimensional reconstructions of objects, such as landscapes. SAR uses the motion of the radar antenna over a target region to provide finer spatial resolution than conventional beam-scanning radars.
