Neil DeGrasse Tyson - Death By Black Hole

Black holes, predicted by Albert Einstein's general theory of relativity more than a century ago, have long intrigued scientists and the public with their bizarre and fantastical properties. Although Einstein understood that black holes were mathematical solutions to his equations, he never accepted their physical reality - a viewpoint many shared.

Death by Black Hole (Audiobook) by Neil deGrasse Tyson ...

Black holes do eventually die due to a phenomenon known as hawking radiation, which is basically a build-up of quantum effects near the event horizon. But this takes a very long time, and everything else in the Universe is predicted to have completely disappeared before the last black hole dies.
