If you're part of a domain, the Full computer name would include your computer name with the domain name appended to it. For example: If I join a domain called mydomain.local and my computer name is MyPC, Computer name would show MyPC and Full computer name would show MyPC.mydomain.local. Because you're not part of a domain, both entries just show your computer name.

What is the difference between "Computer name" and "Full ...
