Homeopathy or homœopathy is a system of alternative medicine created in 1796 by Samuel Hahnemann, based on his doctrine of like cures like (similia similibus curentur), a claim that a substance that causes the symptoms of a disease in healthy people would cure similar symptoms in sick people. Homeopathy is a pseudoscience – a belief that is incorrectly presented as scientific.

The more the solution of a reactant is diluted, the slower the reaction will occur. The key thing you need to understand here is that chemical reactions depend on reactant particles bumping into each other (collision theory). The more concentrated a reactant is, the more likely it will be to bump into other reactants and product chemical change.
