Dreams are very different from waking life, but it is extremely difficult clearly to define in what the difference consists. When we are dreaming, we are nearly always convinced that we are awake, and in some cases real experiences have been mistaken for dreams. The latter mistake forms the subject of a celebrated Spanish play [...]

The illustration above depicts the junction between two nerve cells. Packets of neurotransmitter molecules are released from the end of the presynaptic cell (the axon) into the space between the two nerve cells (the synapse). These molecules may then be taken up by receptors (such as serotonin receptors) of the postsynaptic nerve cell (the dendrite) and thus pass along their chemical message.
