I have been asked a few times for a blog post on how to conduct a proper literature review. This is hard to do sometimes because a lot of people have different methods to do their reviews of the literature (see examples here, here, here and here). I tweeted a few of the steps I undertake, but I ...

1. Introduction. Nowadays the majority of the world population lives in cities, for the first time in human history, and 66% of this population might live in urban areas by 2050 (United Nations, 2014). About 80% of the total greenhouse gas (GHG) emissions come from cities, with 25% attributed to urban transportation, 32% to urban built environment, and an additional 5% to municipal solid waste.
