CASTLE instruction gives priority to development of qualitative reasoning skills. No prior knowledge of electricity is required, making the curriculum accessible to students in all levels of high school physics. And sections have been redesigned to facilitate beginning the CASTLE curriculum in 8th or 9th grade.

This is a fun challenge for my CASTLE friends. A pair of students called me over to discuss an unusual observation in Section 3. I always warn them not to do experiments outside the instructions unless they clear them with me first (some would destroy the equipment). But they often do so unintentionally anyway.

The CASTLE curriculum meets most of the standards set by the NYSRPC, which are described in Table 3. Static electricity and mathematical problem solving are two areas, which the CASTLE curriculum does not cover, (as shown in Table 1). The good thing is that static electricity is a very small portion of the NYSRPC and can be covered in a week.
