Could Artificial Intelligence Replace Our Teachers? Artificial Intelligence has been in the news a lot lately, from ominous warnings of its future implications from academic leaders like Stephen Hawking and Elon Musk, to panic around Facebook AI developing its own language. And according to a recent report from the McKinsey Global Institute, roughly half of today’s work activities could be ...

Ten HR Trends In The Age Of Artificial Intelligence

Artificial intelligence (AI) makes it possible for machines to learn from experience, adjust to new inputs and perform human-like tasks. Most AI examples that you hear about today – from chess-playing computers to self-driving cars – rely heavily on deep learning and natural language processing. Using these technologies, computers can be trained to accomplish specific tasks by processing ...
