A race is a grouping of humans based on shared physical or social qualities into categories generally viewed as distinct by society. First used to refer to speakers of a common language and then to denote national affiliations, by the 17th century the term race began to refer to physical (phenotypical) traits. Modern scholarship regards race as a social construct, an identity which is assigned ...

**Race (human categorization) - Wikipedia**

This article directly addresses the scientific evidences in favor of macroevolutionary theory and common descent. It is specifically intended for those who are scientifically minded but, for one reason or another, have come to believe that macroevolutionary theory explains little, makes few or no testable predictions, or cannot be falsified.

**29+ Evidences for Macroevolution: Part 1 - TalkOrigins Archive**

In Leviticus and Deuteronomy the Biblical usage of "kind" refers to a recognizable species; recognizable to people living among them. People naturally identify plants and animals at roughly the species level (Gould, Stephen Jay, 1980).
